

AIDT, a Division of the Alabama Department of Commerce, provides a total workforce delivery system at no cost to qualified employers for:

- Recruiting, screening and training potential employees
- Developing and producing training materials
- Providing training facilities
- Delivering customized services

Training is conducted by AIDT staff or contracted instructors and delivered through mobile training units customized to meet specific company needs. The units go directly to the employer's site to provide classroom and hands-on training.

AIDT also has permanent locations offering specialized training.

Alabama Robotics Technology Park (RTP), Tanner, AL

RTP is a collaboration between the State

of Alabama, AIDT, the AL Community College System, and automation and robotics industry leaders across the nation. It is composed of three centers.

The Robotic Maintenance Training Center houses an industry training program for robotic machinery.

The Research and Development Center is comprised of four client suites for research and development of robot/automation technologies.

The Integration, Entrepreneurial and Paint/

Dispense Training Center allows companies to build, program and adapt robots for new industries.

AIDT Maritime Training Center, Mobile, AL

The 67,000 square foot facility features classrooms, computer labs, an electrical lab, and a non-destructive testing lab. On the shop floor, there are 60 welding booths, a CNC plasma table, a sub-arc welder, a track welder, and a large lay-down yard with overhead crane access. The facility also has a counter-balanced rough terrain forklift, man-lift, scaffold building and a 10-ton overhead crane and rigging for safety training.

Alabama Workforce Training Center, Birmingham, AL

Alabama Workforce Training Center provides training for the manufacturing and construction industries in the Birmingham and Central Alabama area. This facility is approximately 56,000 square feet of shop space including several classrooms, conference rooms, and a 300 person auditorium.

ALABAMA'S NUMBER ONE INCENTIVE

Total Workforce Delivery System -

AIDT offers comprehensive pre-employment selection and training, leadership development, on-the-job training, continuous/process improvement assessments, maintenance assessments and industrial safety assessments and training - all specific to a company's needs.

Services at No Charge - Services offered by AIDT are provided at no cost if employers meet criteria for starting wages and number of jobs created.

ISO Certification - AIDT was awarded ISO 9001:2015 certification by the International Organization for Standardization.

SERVICES OFFERED BY AIDT

- Pre-Employment Selection and Training
- Leadership Development
- Industrial Safety Assessment
- Industrial Maintenance Technician Assessment Program
- Process Improvement Assessment
- AIDT Extra - A program tailored toward businesses that do not traditionally qualify for existing AIDT services.
