Fayette Industrial Park #2 receives AdvantageSite designation

BIRMINGHAM, Ala., Jan 19th – Fayette Industrial Park #2 recently received an AdvantageSite designation.

The AdvantageSite program requires that community economic development organizations provide documentation specific to a proposed industrial site, including a set of standard data related to ownership/control, environmental and geotechnical conditions, and infrastructure status.

Sites must also meet size, zoning and accessibility requirements.

“The Fayette Industrial Park has received Alabama’s most distinguished award, the Alabama AdvantageSite.” said Judge William Oswalt, chairman of West Alabama Development Association of Fayette County, Inc. This most sought after designation confirms that Fayette is fully prepared to offer industrial prospects site ready opportunities. I congratulate officials from both the city and county for the determination required to achieve this notable achievement.”

“The Fayette Community is very excited to receive the AdvantageSite designation.” said City of Fayette Mayor Ray Nelson, “This state recognition demonstrates the strong commitment to economic development shared by the City of Fayette and the Fayette County Commission.”

“We have a close working relationship with communities in West Alabama and know that this announcement marks an important milestone for Fayette,” said Greg Knighton, Economic Development Partnership of Alabama vice president and director of business information. “This will be an important tool for them as they continue to sharpen their economic development focus.”

The park is the 15th AdvantageSite to be announced, and the second for 2010.

The AdvantageSite program is jointly sponsored by the Alabama Development Office, Alabama Gas Corporation, Alabama Power Company, EDPA, the North Alabama Industrial Development Association and PowerSouth Energy Cooperative.

The voluntary industrial site preparedness program was created in order to make the state more competitive for companies considering a location in Alabama.
