

## QUICK START

### Full Extends

Return map to search extent

### County Select Tool

Select counties within the map

Authorized users login for information maintenance and reports.

### Polygon Search

Draw a rectangle around any location to pull properties within that area

### Radius

Search for properties within the defined radius

GIS layers that can be added to the map (transportation, education, MSAs, OEMs, auto suppliers, incubators, partners)

### Map Options

Change the background of the map to streets, tops, USGS, and satellite

### Search by Address

Search for a particular address within the map. For best results, include zip code.

Zoom in and out tool; Rotate map; return map to full world extent

Search tabs for buildings, sites, EDPA partners, business incubators and Alabama technologies.
