Childersburg Industrial Park Site receives AdvantageSite designation

BIRMINGHAM, Ala., July 5 – A 115-acre site in Childersburg Industrial Park has received an Alabama AdvantageSite designation.

The AdvantageSite program requires that community economic development organizations provide documentation specific to a proposed industrial site, including a set of standard data related to ownership/control, environmental and geotechnical conditions, and infrastructure status. Sites must also meet size, zoning and accessibility requirements.

“The information generated and documented in the certification process will greatly help in the effort to bring industry to Alabama and Talladega County,” said Calvin Miller, executive director of the Talladega County Economic Development Authority. “We are thankful to those partners who made their time and resources available to reach the AdvantageSite designation.”

“We commend the City of Childersburg and the Talladega Economic Development Authority for pursuing AdvantageSite designation for the Childersburg Industrial Park Site,” said Greg Knighton, Economic Development Partnership of Alabama vice president and director of business information. “This designation demonstrates that key site information is documented and available for prospective industry.”

AdvantageSite is a voluntary industrial site preparedness program created in order to make the state more competitive for companies considering a location in Alabama.

The program is jointly sponsored by the Alabama Development Office, Alabama Gas Corporation, Alabama Power Company, EDPA, the North Alabama Industrial Development Association and PowerSouth Energy Cooperative.
